

**Fed up with other people's customers
using your Car Park?**

**Is the Local Authority Car Park empty but
you have no space for your customers?**

**Are on-street parking controls causing
abuse of your valuable parking space?**

Car Parking Systems

If You Can't Beat Them, Join Them!!

To buy your own Pay & Display parking machine please contact the experts – Electro Automation. We can offer a solution to your parking problems that can pay for itself in a matter of months. The Electronic Pay & Display machine offers you the opportunity to take back control of your car park and keep it for your most important visitors – your customers!

Pay on Foot

With Zeag Orion fully computerised Car Parking Control Systems you can choose between automatic pay stations, cashier pay stations and season ticket control systems. Configurations suitable for "Pay on Foot" or "Pay from Vehicle" or a combination of both are available. Automatically audited accounts can be provided while also ensuring the maximum return on car parking space with the minimum of overheads.

Unibar Automatic Traffic Barrier

The Unibar Barrier, which is manufactured by P I Electronic, an associate company of the Electro Automation Group of Companies, is of a revolutionary design and guarantees continuous rating. The unique counterbalance ensures smooth beam movement and drastically reduces stress, providing trouble free

operation and low maintenance cost. Built in "anti crush" - patented-safety clutch feature prevents damage or accidents. The barrier also has a quick but secure manual key release system. The Unibar barrier has the beam in the centre of the housing thus removing the necessity of specifying a left or right hand system. The Unibar is one of the most flexible barrier systems on the market today.
